

Make 'n Take

Name of Make 'n Take: Connecting Past to Present and Future
Theme and Topic: History – The First Nations' Lifestyles Change
Name of Teacher: Rose Campbell
Name of School/School Division: Ospwakun Sepe, Northern Lights School Division113
Grade: 3/4
Date: May 11, 2010

Materials:

4' X 12' Paper, colored markers

Procedure:

1. Fold the large piece of paper into three equal parts by width. And four equal parts lengthwise.
2. Arrange students in 4 groups of three – give each group one of the following: clothing, shelter, food, transportation. Each group will have an area of 12" X 36" to draw their pictures. (Please convert to centimetres and metres if you wish).
3. 1st person in each group draws a picture of the past with the second person connecting their part to the present and the third person finishing with the future.

4. Each person will finish his/her section with a connecting picture for the next person to start from. E.g. –half a tree and the next person will complete the tree and adds a picture connecting to his/her part (past, present or future).
5. Each person is responsible for colouring his/her own picture.
6. The second person in each group will do the present. His/her picture will be about the present (now). S/he will need to add a connection to the 3rd frame.
7. The 3rd person in each group will complete his/her picture with what s/he thinks it will be like the future.
8. Students should really talk and think about what they will be doing or they can just do their own thing.
9. Have a talking circle and have the students talk about how they decided on their pictures and how the picture connects to each timeframe (past, present and future). Ask them if they collaborated or did they do their own thing? Would they do the planning they same way if they were to do a similar activity?

*** The sample picture on shelter is given at the top of this lesson. It is not complete (needs to be coloured). It is just a sample of what the students will be doing.
